

# Schroefbuisclommen

met draadsok en DÄMMGULAST® geel, gegalvaniseerd

## Toepassing

- Toepasbaar voor leidingen met dynamische belastingen in combinatie met glijbevestigingen
- Geschikt voor de bevestiging van industriële leidingen
- Geschikt voor staande bevestigingen
- Voor de bevestiging van leidingen in de installatiebranche
- Bevestiging van leidingen voor binnenmontage

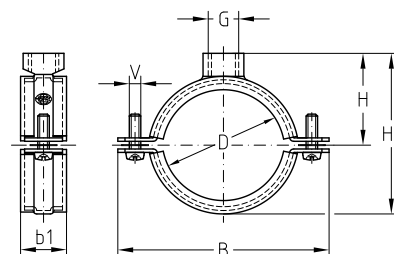

## Uw voordelen

- Deugdelijke tweedelige schroefbuisclom in stabiele uitvoering
- Voor buigvaste bevestigingen met grotere bouwwerkafstand
- Ideale combinatie door aansluiting met buisnippel en grondplaat resp. steunkrachtadapter
- Geluidgedempte DÄMMGULAST® met gele herkenningstrepen: geluidsniveau-verbetering gemiddeld 22 dB(A)

## De gegevens

| Maat      | Max. toelaatbare belasting [N] |
|-----------|--------------------------------|
| 3/8"-2"   | 1.700                          |
| 70-83 mm  | 2.200                          |
| 3"-133 mm | 2.900                          |
| 5"-200 mm | 3.500                          |
